

Webcam (P012)

1080p HD webcam with built-in microphone.

Look your best in video calls and streams with our 1080p HD Webcam. It delivers sharp and clear video quality with vibrant colors and auto light correction. The wide-angle lens captures more of your surroundings, making it ideal for presentations and group calls.

The built-in noise-reducing microphone ensures your voice is heard clearly, even in noisy environments. It features a plug-and-play USB connection, compatible with all major video conferencing software. The versatile clip allows for easy mounting on monitors or tripods.
